Hitachi EverFlex Containers as a Service

Complete container and analytics solution using private, public, or hybrid cloud.

- Scalable, cost-effective, and secure environment.
- Consumption-based service.
- Fully integrated with Hitachi EverFlex Control intelligent automation platform.
- Empowers businesses to innovate faster.

Centralized Management Portal

Kubernetes Engine	Kubernetes Management	Compute & Storage	Networking	Security
Integrated K8's engine eliminates overhead and security risks native to other platforms.	Streamline deployment, lifecycle management, user access, data protection, disaster recovery, and more.	High-performance infrastructure provides increased performance, QoS, & external Hitachi storage integration.	Seamlessly integrates with networks, simplifies setup, and provides essential security monitoring tools.	Extensive encryption role-based access to control user access to systems and data

Hybrid Cloud Observability /Heterogenous Infrastructure Reporting & Analytics

Autonomous Operations with AIOps

Self Service Catalog for Automation Workflows

Hitachi Managed & Professional Services

RED HAT OPENSHIFT · kubernetes · vmware · CISCO · aws · Google Cloud · Microsoft Azure

Boost Business Agility and Performance

As IT and storage infrastructure demands grow, so do the challenges facing IT departments to manage infrastructure, maintain service levels, and deploy new projects on behalf of the business. New operating models are required to ensure IT delivers services that are dynamic, cost efficient, responsive, and compliant. As organizations grow, the ability to consume capacity in a more flexible manner becomes increasingly critical.

Hitachi EverFlex Containers as a Service represents a pivotal shift in how organizations develop, deploy, and manage applications. CaaS from HV provides a scalable, costeffective, and secure environment for containerized applications.

- **Scalability & Performance**
  Automatically adjusts to the resources required to run a service.
- **Application Portability**
  Works with virtually any type of underlying infrastructure.
- **Significant Reduction TCO**
  Guaranteed reduction in total cost of ownership Infrastructure, servers, software licenses, etc.
- **Fully Automated**
  Provide intelligent automated, self -healing operating model across Datacenters and Hybrid Cloud infrastructure.

Containers as a Service includes storage, compute, networking, and software that provides a complete container and analytics solution using private, public, or hybrid cloud. This service delivers to customers a Kubernetes platform, that will improve overall application portability with a typical total cost of ownership (TCO) reduction in the realm of 30-50%.

Hitachi EverFlex Containers as a Service is a consumption-based service that provides our customers and the market with solution options in their transformation journey.

Containers as a Service from Hitachi Vantara provides customers with:

- Increased Stability.
- Committed SLAs.
- Seamless integration into existing platforms.
- Minimizes risk with a dedicated security and orchestration platform.

About Hitachi Vantara

Hitachi Vantara is transforming the way data fuels innovation. A wholly owned subsidiary of Hitachi, Ltd., we're the data foundation the world's leading innovators rely on. Through data storage, infrastructure systems, cloud management and digital expertise, we build the foundation for sustainable business growth.
